SEED GROWER FOR THE WHOLESALE TRADE ONLY.

Seed Farms and Warehouse, Mattituck, Long Island, N. Y.

CABBAGE SEED A SPECIALTY.

TO THE TRADE:

We are now prepared for making contracts for growing the justly celebrated **LONG ISLAND CABBAGE SEED**, 1904 crop, of the best quality, and of all the popular sorts, at as low a price as first-class seed can be produced. We have for many years made the growing of **CABBAGE SEED** a specialty, and have introduced some of the choicest varieties known in the trade. Among them are All Seasons or Vandergaw, Mammoth Rock Red, Burpee's All Head and Solid South.

We cordially invite all interested to examine our stocks before putting in trenches in November, and compare them with others, the only way of knowing where the best sorts can be obtained. In evidence of the superiority of our stocks, we will say that a field of our coming **NOVELTY** was pronounced last November "**THE BEST FIELD OF CABBAGE ON LONG ISLAND,**" and credited to another's stock of a different origin.

Our Conditions of Contract are as Follows:

- 1st.—All Cabbage put out for seed is subject to inspection, either before being put away in the Autumn, or after transplanting in April, and if not perfectly satisfactory to our customers the contract may be annulled.
- 2d.—For seed purposes I put away only well developed heads, such as will plainly indicate the type.
- 3d.—Parties having a special type and furnishing their own stock seed will have it grown with the greatest possible care, and everything will be thrown out that is not true to type.
- 4th.—But one variety is grown by the same party, and not near enough to any other sort to endanger its purity from cross-fertilization.

TERMS:—Acceptance, with invoice, 6 months from December 1st. A discount of 5 per cent. allowed on all bills if paid within twenty days from date of invoice.

For seeds ordered after January 1st payments are due June 1st following.

We ask our customers to give explicit shipping directions, as our responsibility ceases when the goods are delivered to the express or freight offices and we take a receipt for the same.

CABBAGE.

✓ ALL HEAD (Burpee)	✓ EARLY SPRING
✓ FALL SEASONS	✓ ETAMPES
✓ ALPHA	✓ EXPRESS
✓ AUTUMN KING	✓ FAULTLESS

Prices for all Kinds of Seed on Application,
Stating Quantity Wanted.

NOTE.—Of most of the popular sorts we have a limited stock of 1902 crop and can still book orders for 1903 crop. All contract orders are subject to the usual growers conditions of total or partial failure of crops.

A NEW BOOK.

Publisher's Announcement.

Cabbage, Cauliflower and Allied Vegetables

From Seed to Harvest

By C. L. ALLEN, Author of *Bulbs and Tuberous Rooted Plants*

The author of this book has devoted a lifetime to the study of the subjects upon which it treats, and living on Long Island, in the very heart of the most favorable cabbage growing section in the United States, and being himself largely and practically interested in this industry, is probably more familiar with its various details than any other man.

Considerable space is devoted to the explanation of the requirements, conditions, cultivation and general management pertaining to the entire cabbage group. After this each class is treated separately and in detail. The chapter on seed raising is probably the most authoritative treatise on this subject ever published, and will be intensely interesting and valuable to all those engaged in this industry. Insects and fungi attacking this class of vegetables are given due attention, with a view to giving the reader the latest and most effective means for their prevention and destruction. There is a convincing and practical tone about the entire work which at once assures the reader of the safety in following the instructions given in its pages.

Illustrated, 5x7 inches, 128 pages. Cloth. Price, postpaid, 50 cents.

TO THE TRADE 30 CENTS.
